COMMENTS:

Our Society has no objection to the work described in the documents provided, as these will visually improve the building interior and internal courtyard.

However we are concerned that information might be missing as to the future use of this building. There were a number of documents that were included in this bundle that did not relate to this application. I therefore worry that some documents were omitted. Please can I have the reassurance that there were no further documents related to this application that refer to future use of the building.
