Dear Mr Wasilewski

Queen's Walk Cycle Grid Feasibility Study and Green Park Path Re-Alignment Study

On behalf of The Thorney Island Society I would like to make the following comments:

Queen's Walk

We are in favour of improving the Quietway cycle network, but we are anxious that the use of bicycles on the Queen's Walk, which is heavily used, especially by tourists walking from Green Park tube station to Buckingham Palace, is hazardous. The existing path is not very wide and the mix of pedestrians, whose course is not always predictable, and fast moving bicycles could lead to injuries.

Path Realignment in south-east corner

We are in favour of creating paths where there are existing desire lines. While we regret the loss of grass, when this grass is turned into mud by excessive wear a hard-surfaced path is preferable.

Yours Sincerely
for and on behalf of the Thorney Island Society

Lucy Peck
