Installation of DDA access ramp for officers mess.

:

The Thorney Island Society has reviewed the proposals and discussed them with the applicant. The attention to detail is welcomed. This is particularly in regard to matching the new materials to the existing York stone slabs . This will achieve a coherent whole while meeting the required standards for DDA providing the disabled access. The Thorney Island Society welcomes the improvements to access and considers the Application both appropriate and acceptable. The Society therefor has no objections in principle.
