Erection of a roof extension to provide two residential units (Class C3).

Thank you for forwarding a copy of the application along with your letter dated 17th October, (but post marked 22nd and received 23rd October).

We spoke to the Applicant regarding further information on accommodation for cycles and provision for refuse storage, understand that both are as the existing facilities. We also understand that where and if access is required onto the flat roof area in front of the dwellings a cable and clip on facility is in place.

We have no objections in principle and welcome the additional residential accommodation which appears to fit quite well with the overall massing of the building.

For and on behalf of The Thorney Island Society
