for the attention of Vincent Nally

17th July 2009

Dear Rosemarie

**62-64 Horseferry Road, London SW1P 2AF**

**Installation of two air conditioning units to east elevation of lift motor Room above fifth floor level with associated works, following removal of one existing units from rear ground floor**

**ref 09/04496/FULL TP/1312**

Thank you for sending a copy of the application along with your letter dated 13th July 2009. We have examined the documents. We have no objection in principle but add the following comments.

We are not in a position to assess the potential noise level or possible transfer of vibration to the building and its surroundings. Assessment of these are looked for from WCC's technical advisors.

However we did not find in the documents any reference to times when the machinery would be run and when it would be switched off. While it would seem that the immediate surrounding property is used for offices, it also appears that there are some residential uses in relatively close proximity. Photo montage "A" would suggest that. The area generally is mixed use and residential premises are close.

The WCC needs to be satisfied that there are conditions which safe guard residential uses in particular and also other adjacent office users.

We trust that our comments will be taken into account and made known to the Planning Committee.

Yours sincerely  
for and on behalf of The Thorney Island Society

*Tom Ball*
